CONTENTS OF BRAIN RESEARCH PROTOCOLS VOLUME 9

VOL. 9 NO. 1 **FEBRUARY 2002**

Guide for Authors v

Theme for Topics x

Announcement

Call for Papers – Gene Expression Patterns xii

Protocols

c-Fos expression as endogenous marker of lumbosacral spinal neuron activity in response to vaginocervical-stimulation
A. Ghanima, M. Bennis, O. Rampin (Morocco, France) 1

A method to induce manganese accumulation in the brain of the cirrhotic rat and its evaluation
S. Montes, M. Alcaraz-Zubeldia, C. Ríos, P. Muriel (Mexico) 9

Perineuronal surface acetylcholinesterase activity of a fine neural network stained histochemically and observed with backscattered electron imaging and X-ray mapping methods
S. Tsuji, R. Nakatomi, H. Tsuchiya, K. Hirai, Y. Katayama, I. Motelica-Heino, T. Hashikawa (Japan, France) 16

The use of a remote-controlled minivalve, carried by freely moving animals on their head, to achieve instant pharmacological effects in intracerebral drug-perfusion studies
N. Ludvig, L. Kovacs, L. Kando, G. Medveczky, H.M. Tang, L.P. Eberle, C.R. Lemon (USA) 23

The traffic light paradigm: a reaction time task to study laterally directed arm movements
P. Bartolomeo (France) 32

Evaluation of neuronal cell death by laser scanning cytometry
E. Verdaguer, D. Pubill, V. Rimbau, A. Jiménez, E. Escubedo, J. Camarasa, M. Pallàs, A. Camins (Spain) 41

A model of 'epileptic tolerance' for investigating neuroprotection, epileptic susceptibility and gene expression-related plastic changes
C. Leré, B. El Bahh, G. Le Gal La Salle, A. Rougier (France) 49

Neurogenic bladder model for spinal cord injury: spinal cord microdialysis and chronic urodynamics
C.P. Smith, G.T. Somogyi, E.T. Bird, M.B. Chancellor, T.B. Boone (USA) 57

Cochlear whole mount *in situ* hybridization: identification of longitudinal and radial gradients
T.N. Judice, N.C. Nelson, C.L. Beisel, D.C. Delimont, B. Fritzsch, K.W. Beisel (USA) 65

Application of real-time quantitative polymerase chain reaction to quantification of glutamate receptor gene expression in the vestibular brainstem and cerebellum
A. Horii, P.F. Smith, C.L. Darlington (New Zealand, Japan) 77

VOL. 9 NO. 2 **APRIL 2002**

Call for Papers – Gene Expression Patterns v

Interactive protocols (Also accessible on the World Wide Web at **http://www.bres-interactive.com**)

A sensitive technique to clone low abundance receptor transcripts from single microdissected tissue punches
X. Yang, J.E. Marchand (USA) 135

Protocols

A novel MCA occlusion model of photothrombotic ischemia with cyclic flow reductions: development of cerebral hemorrhage induced by heparin
B.-Q. Zhao, Y. Suzuki, K. Kondo, K.-i. Kawano, Y. Ikeda, K. Umemura (Japan) 85

PII: S1385-299X(02)00170-8

An improved method for the expression of TRH in serum-supplemented primary cultures of fetal hypothalamic cells
P. Joseph-Bravo, L. Pérez-Martínez, L. Lezama, C. Morales-Chapa, J.-L. Charli (Mexico) 93
Method for culturing postnatal substantia nigra as an in vitro model of experimental Parkinson's disease
M. Smeyne, R.J. Smeyne (USA) 105
Anesthetic methods in rats determine outcome after experimental focal cerebral ischemia: mechanical ventilation is required to obtain controlled experimental conditions
S. Zausinger, A. Baethmann, R. Schmid-Elsaesser (Germany) 112
Recording and marking with silicon multichannel electrodes
G. Townsend, P. Peloquin, F. Kloosterman, J.F. Hetke, L.S. Leung (Canada, The Netherlands, USA) 122
A rapid method for obtaining finasteride, a 5α-reductase inhibitor, from commercial tablets
G. Trapani, L. Dazzi, M.G. Pisu, A. Reho, E. Seu, G. Biggio (Italy) 130

VOL. 9 NO. 3 **JUNE 2002**

Call for Papers – Gene Expression Patterns v

Protocols
Competitive quantitative measurement of the AMPA receptor gene expression at the single cell level
C.W. Alsbo, M.L. Wrang, N. Henrik Diemer (Denmark) 157
Quantifying presynaptic terminals at the light microscope level in intact and deafferented central nervous structures
I. Gerrikagoitia, G. García del Caño, L. Martínez-Millán (Spain) 165
Subcellular localization of GABA receptors in the central nervous system using post-embedding immunohistochemistry
W.L. Heck, A. Slusarczyk, A.M. Basaraba, L. Schweitzer (USA) 173
Methods to examine molecular changes and behavioral effects of drug administration
L. Michna, M. Brenz-Verca, J.-L. Dreyer, G.C. Wagner (USA, Germany, Switzerland) 181
A combined immunohistochemical and autoradiographic method to detect midbrain dopaminergic neurons and determine their time of origin
J. Martí, K.V. Wills, B. Ghetti, S.A. Bayer (Spain, USA) 197
Isolating vessels from the mouse brain for gene expression analysis using laser capture microdissection
H.J. Ball, B. McParland, C. Driussi, N.H. Hunt (Australia) 206
A simplified method for combined immunohistochemistry and in-situ hybridization in fresh-frozen, cryocut mouse brain sections
S.S. Newton, A. Dow, R. Terwilliger, R. Duman (USA) 214
